Key concepts to build peace.

Key practical methods to act in consensus to protect the environment.

Key basic notions to have a correct interaction with native peoples.

The kids will be able to experience the sharing circles within the tradition of the original people of the territory.

They will also be able to experience songs and dances in accordance with the natural cycles of our Mother Earth.

Interactive workshops within The Two Row Wampum Peace Treaty

Tools for building peace and protecting the environment

Are you a teacher that is looking for content or activities to engage in a Reconciliation with the original peoples of Turtle Island?

These series of workshops will give you the possibility to offer your students what really matters.

How to have one or many workshops?

The Kanienkehaka (Mohawk) Traditional Council

The bridge between the non native and the native people

The Kanienkehaka Traditional Council is the ancestral body of unbroken bloodline of the original people of this land

As Awenen, Wa Karoni, Wa Kontarena - Peace, Prosperity, Power and Equality to All

Five Nation Longhouse Confederacy

Kahnawake Kanien'kehaka Nation
For years, the Kanienkehaka (Mohawk) Traditional Council has been working with Universities and schools to expose the children to the original teachings of this territory: The Great Law of Peace and the Two Row Wampum Peace Treaty.

Whether the kids come to the Longhouse or the Kanonsesronon (people of the Longhouse) go to visit the kids at the schools, this bridge has allowed the children of many different Countries, that have come to live into this territory, to learn the most important thing: the culture of the people whose lands they are in.

The workshops are created to suit all different levels:
- 3-5 years old
- 6-12 years old
- 12-17 years old
- Adults and seniors (teachers, employees, boards, organizations and corporate).

A calendar within the natural cycle for the year includes:
- February: Skywoman, our Grandmother Moon and our Mother Earth
- March: the maples. The waters and the awakening of the land
- April: Seeds and medicines. Preparing for the planting
- May: visit to the grounds of the Longhouse
